

# Uniclass 2015

## PM – Project Management Table v1.3

January 2019

### General changes

We are continuing our work with Transport for New South Wales to assist their adoption of Uniclass 2015 for their digital engineering. In order to achieve this we have created a new table for 'Roles' and moved all the 'Personnel' codes from the Project Management table into the new table. This new table also enables us to expand the number of 'Roles' and to add codes for trades.

We have added two new codes and amended one other in the Project Management table. See below for details.

### Particular changes

v1.2 Code	v1.3 Code	Classification	Notes
	PM_40_30_10	Calculation	Project management code added.
	PM_40_30_75	Schedule	Project management code added.

v1.2 Code	v1.3 Code	Classification	Notes
PM_60_30_64	PM_60_30_20	Contract programme	Project management code amended and renumbered from <i>Programme</i> .

### Personnel to Roles changes

Classification PM\_20\_20\_18, 'Construction operative' has been deleted and replaced by two new subgroups of classifications: Ro\_70\_50, 'Building trades' and Ro\_70\_60, 'Services trades'.

Classification PM\_20\_50\_77, 'Road engineer' has been deleted as it is a duplicate of Ro\_50\_20\_41, 'Highways engineer'.

Classification PM\_20\_70\_26, 'Environmental surveyor' has been deleted as Ro\_70\_30\_28, 'Environmental surveyor' is considered more appropriate terminology.
