## SL – Spaces/ locations Table v1.12

April 2019

### General changes

There have been changes to the ‘Spaces/ location’ table as a result of input from several users. We have included fire safety spaces, following a meeting with the fire engineers at Arup; there are several new codes for marine projects, as a result of our work with Royal HaskoningDHV; and we have added some codes for temporary traffic management, following discussions with Virtus Traffic Management Solutions Ltd. See below for details.
